A well-formed question invites a rich answer, promotes interaction, and helps learners practice vocabulary and sentence structure naturally.

What Makes a Question ‘Perfect’ in Spanish?

A perfect question in Spanish possesses several characteristics:

- **Clarity:** The question should be easy to understand and free of ambiguous terms.
- **Relevance:** It relates to the topic or context of the conversation or lesson.
- **Open-endedness:** Whenever possible, questions encourage more than a yes/no answer to stimulate extended conversation.
- **Proper grammar:** Correct use of question words (qué, dónde, cuándo, cómo, quién, por qué) and verb conjugations.

For example, in Capítulo 4A, where the focus might be on describing family members or daily

activities, a question like “¿Qué haces los fines de semana?” (What do you do on weekends?) is perfect because it prompts a detailed response while staying within the thematic focus.

Effective answers should include activities and time expressions:

Yes/No Questions and Their Expansion
