Pricing Structure

MYOB Mind Your Own Business generally offers tiered subscription plans tailored to different business sizes and needs. Pricing is competitive but tends to be on the higher side when compared to some entry-level options from competitors. However, MYOB's comprehensive payroll and tax compliance features justify the premium for many Australian businesses.

Feature Set Comparison

- **Xero:** Known for its robust integrations and advanced inventory management, Xero offers more extensive third-party app compatibility than MYOB. However, MYOB's payroll capabilities are often cited as more localized and compliant with Australian regulations.
- **QuickBooks Online:** QuickBooks boasts a large user base and a simple interface but may lack some of the detailed tax functionalities that MYOB provides for Australian tax legislation.
